## **CEEA Invited to Participate in OPA Conservation Committee**

The Ontario Power Authority has announced the development of a new advisory committee on conservation and has invited CEEA to participate in the initial discussions--with the hope of becoming a member when it is formed. This advisory committee will provide advice to the OPA as it coordinates the achievement of Ontario's provincial electricity conservation targets, with a focus on the 2015 targeted reductions of 4,550 MW and 13 TWh.

CEEA is encouraged as the discussion documents provided hints at the importance of the relationship between gas and electricity in the achievement of conservation targets--recognizing the fact that Energy is Energy, regardless of how it's generated.

## **[HIRS on Display at the Canadian Association of Chiefs of Police Annual Conference in Windsor](#)**

CEEA's Hybrid Idle Reduction System (*HIRS*) was on display this week at the Canadian Association of Chiefs of Police Annual Conference in Windsor.

## **[Ontario Code Tops In Energy Efficiency](#)**

Under the Green Energy and Economy Act, passed in 2009, energy audits were mandated for resale homes so that prospective buyers would know a home's energy efficiency rating. However, this provision has not yet been implemented, according to Paul ...

## Industry Events

### **EnerQuality and Home Ratings Ontario Inc. (HRO) are Proud to Present: 2012 Ontario Building Code Workshops**

**September 16, 2011 | Sudbury, ON**

**September 30, 2011 | Thorold, ON**

**October 4, 2011 | North York, ON**

The 2012 Ontario Building Code will require that all new houses reach EnerGuide 80 levels of energy efficiency. Where the old Code had one way to comply with energy efficiency requirements, the new Code has 37 compliance packages. These workshops will ensure your team is ready to meet the new energy efficiency requirements of the 2012 OBC without missing a step.

### **Zerofootprint Re-Skinning Awards--Last Day to Submit Nominations is August 31st, 2011**

The Zerofootprint Re-Skinning Awards showcase excellence in holistic retrofitting projects from around the world. These are projects that update older buildings to bring their carbon, energy, and water performance to sustainable levels, improve their aesthetics, and make them "smarter." The application deadline to nominate retrofitting and re-skinning projects for the Re-skinning Awards is August 31, 2011.
